Pitching Machines Improve Instruction and Batting !

3615

BATTING TUTOR A/C

#3615

Designed for use in the backyard, this pitching machine provides realistic and safe batting practice without a batting cage because it pitches plastic polyballs instead of baseballs. Polyball practice develops good hitting instincts quickly because it requires the same hand-eye coordination as hitting baseballs but without the fear of getting hit. With Batting Tutor, you can hit more than 100 pitches in less than 30 minutes. Its automatic pitching throws every kind of pitch at 6-second intervals, from fastballs to curve balls, at speeds from a gentle toss to 60 mph, all at the turn of a dial. Pitch placement is completely adjustable throughout the strike zone, and it can even throw both left- and right-handed curves, with complete control of the amount of curve. The autofeeder can be removed for manual feed or rising fastballs or true sinkers. Adjustable tripod legs detach easily in seconds. Circuitry shuts off automatically if a baseball is dropped into it. Holds 20 balls (40 with included hopper extender). 27 lbs.

BATTING TUTOR BATTERY OPERATED

#3616

Same as #3615, but battery powered (DC) Ideal for traveling with the team. Powered by a 12-volt internal rechargeable battery that provides up to 2 hours of practice. It can be recharged up to 1000 times before replacement. Comes with plug-in charging unit that recharges the batter overnight. 27 lbs.

3616

TUTOR EASY TOSS

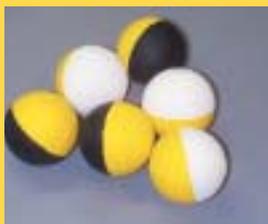

3614

Practice soft-toss drills and improve batting techniques with this automatic tossing machine. Ideal for warm-ups on game day for sharpening your hitting skills and for specialized drills. High school, college and professional teams make soft-toss drills a regular part of their workout schedule because they improve hand-eye coordination and are ideal for working on hitting mechanics. Easy Toss automatically tosses a ball every five seconds in an arc of about 8 feet. When used with a practice net, Easy Toss requires an area of only 10' x 10', which makes it practical for backyards, garages, and gymnasiums. Uses an internal rechargeable battery (charger includes), which provides 6 to 8 hours per charge. 13'H x 17"Dia. Holds 14 baseballs or 10 softballs. 13 lbs

Tutor Easy Toss with batteries

3620

For more occasional use, Easy Toss with batteries uses 8 D batteries (not included) that typically provide 8 to 10 hours of use. 13'H x 17"Dia. Holds 14 baseballs or 10 softballs. 13 lbs.--

PRACTICE BASEBALLS #9595

Unique, two tone ball improves visibility and makes hitting easier. Balls throw true, maintain shape and are very durable. Colors: White/Red Stripe and Yellow/Black Stripe.

SOFTBALL PITCHING MACHINES

ACCESSORIES FOR PITCHING MACHINES

#3603 WITH AUTO FEED

#3607

DELUXE SOFTBALL MODEL #3603

- Program Any Selection
- 8 Programs Available
- Same Quality and Performance as Standard Model
- Any Pitch - Any Order
- Weight 175 lbs.

STANDARD SOFTBALL MODEL - Select A Pitch Control #3604

- Same Features as Baseball Machine
- Changes Speed (40-70 mph) in Seconds
- Balls "Glance Off" Protective Case
- Easy to Set Up and Transport
- Fastballs, Breakers and Off-Speed
- Weight 175 lbs.

#3604 WITH HAND FEED

#3604

#3604

LOWER PROTECTIVE SCREEN #3607

Strong poly-net is fabricated with heavy vinyl fabric to provide protection to the operator and long-term durability. Easily secured with Velcro fastener. 2 lbs

MACHINE VINYL COVER 3 lbs. (not shown) #3606

ON-OFF WIRED REMOTE #3610

Controls auto-feed while standing by batter. Contains 75' of cable and hand-held on/off button. (not shown) 5 lbs

#9510 RS WITH 9598 WHEELS

RECTANGULAR SCREEN #9510 RS

Frame is 16 gauge zinc plated steel, 1.5" square tube. All connections are through-bolted for strength and durability.

Net is double faced #504 black nylon in 1-7/8" squared mesh. Size is 78" x 72" overall.

Use to protect infielders shagging balls. Double-layered net slips easily over frame and stays secure. Sturdy legs are through bolted for long life. Plated finish gives maximum protection. 45 lbs.

POCKET NET FOR RECTANGULAR SCREEN #9510 RS #9513

Funnel-like net that catches the balls as they hit the screen. Size is 78" x 72" x 72" (not shown)

RECTANGULAR CATCH SCREEN #9538

Ideal for use with pitching machines. Includes screen with pocket netting that catches balls. (not shown)

PITCHERS SCREEN #9510 PS

Frame of 16 gauge zinc plated steel, 1.5" square tube. Cut out for pitching or ball machine. Double-layered netting of #504 black nylon in 1-7/8" squared mesh slips easily over frame.

Size is 78" x 72" overall. All connections and legs are through-bolted for durability. Weather resistant finish stays bright. 45 lbs.

WHEEL ASSEMBLY FOR PROTECTIVE SCREEN #9598

Easily attaches to frame. Solid construction and large wheels allow for easy positioning and moving of screens. 7 lbs.

#9510 PS WITH 9598 WHEELS

#9510 RS

#9598

DELUXE BATTING CAGE FRAME KIT

#9503

4 section frame set for use up to 75'; includes hardware and sleeves. Full size galvanized steel frames of 2-3/8" diameter heavy wall tubing. Standard kit includes 4 frames and will support 12' x 12' net up to 75' long. Ground sleeves, cable and hardware included. 160 lbs.

BATTING CAGE EXTRA SECTION

#9503 E

Set of 16' vertical steel tubing and 14' top cross member with 36" ground sleeves. 40 lbs.

NYLON BATTING CAGE NET

#9523 55

Net is #504 black, knotless nylon in squared 1 7/8" mesh with UV protection for outdoor use. Finished with rope border. Size is 55' x 12' x 12'. 60 lbs.

NYLON BATTING CAGE NET

#9523 65

Same as #3527 55. Size is 65' x 12' x 12'. 70 lbs.

NYLON BATTING CAGE NET

#9523 70

Same as #3527 55. Size is 70' x 12' x 12'. 75 lbs.

NYLON BATTING CAGE NET

#9523 75

Same as #3527 55. Size is 75' x 12' x 12'. 80 lbs.

BATTING CAGE BAFFLE

#9506 S

Small size is 3' x 4'. Increase netting life and stop ball rebounding. Durable 13 oz. vinyl coated polyester baffle with lead rope in bottom hem. Brass grommets provide quick installation. 2 lbs. (not shown)

BATTING CAGE VINYL BAFFLE

#9506 L

Large size is 6' x 6'. Stops ball rebounding and increases netting life. Heavy 13 oz. vinyl baffle with lead rope. Brass grommets make installation easy. 4 lbs. (not shown)

BACKSTOP VINYL PAD

#9507

Reduce ball bounce within backstop or practice cage with this tough vinyl covered high density, protective foam pad. Size is a full 72" x 52" by 4" thick with brass grommets for easy installation. UV resistant vinyl and special thread stand up to the elements and provide long life. 6 lbs. (not shown)

DELUXE BATTING CAGE FRAME KIT WITH EXTRA SECTION AND NYLON NET

FENCING POLE SYSTEMS

Both pole systems are designed to be used with all our fencing fabrics. The standard roll of fencing is 4' high and 150' long. Depending on the application, more than one roll may be required.

For the most active areas, you should consider the **Porta-Flex™** pole system. This heavy duty pole and ground anchor combination is made from UV-inhibited, impact-modified plastic that will bend to the ground and come back straight, time and time again. The premium **Porta-Flex™** system can be installed with or without the convenient ground anchors. For best results, we recommend installation using our carbide drill bits and a cordless drill.

Our **Smartpole™** system is designed for light duty use where body impact is unlikely. This system is an economical answer to many requirements and installation can be done with the tools provided.

3587/3588

Porta-Flex™ Pole System #3583

Heavy duty pole will handle low (15 mph) speed impact. Set consists of 16 poles with hooks. Installation is easy. One set will support 150' of fencing. Available in red, green, and blue.

Porta-Flex™ Ground Anchors #3584

When combined with the pole system, allows convenient, daily set up and removal. Set of 16 anchors with plugs.

Single Porta-Flex™ Pole (64") #3585

Single Porta-Flex™ Ground Anchor (14-1/2") #3586

Double Pointed Carbide Drill Bits

Each rugged bit is 18" long and chrome finished. Bits come with 1/2" and 3/8" shanks.

Recommend the 1-1/4" bit for poles without anchors #3587

Recommend 1-1/2" bit for ground anchors #3588

Smartpole™ Fencing Installation Set with Sockets #3397

Set of 16 fencing poles/stakes (60" L) and 16 ground sockets (12" L). Includes 15 Black poles and 2 White end poles. Makes fence installation quick and easy using the included punch-pilot hole tool, socket setter, and installation sheet. Simply hang fencing on cleats (3 per pole) and adjust tension as needed. One set is perfect for each 150' L roll of fencing (poles placed at 10' intervals).

Smartstakes™ Fencing Installation Set #3398

Set of 16 pointed stakes (60" L) includes 14 Black stakes and 2 White end stakes. Great for temporary fencing. Installation is quick with the included pilot hole tool. Simply drive the stakes into the ground at desired locations, hang fencing on cleats (3 per pole) and adjust tension as needed. One set is perfect for each 150" L roll of fencing (poles placed at 10' intervals).

Ground Sockets Set #3399

Set includes 16 sockets (12" L), 16 yellow plugs, one socket setter, one pilot hole tool, and installation sheet. Provides ideal flexibility for multiple fence locations

Single Fence Pole/Stake (60" L) #3406

Single Ground Socket (12" L) #3407
