

## INDOOR WALL PADS

## INDOOR WALL PADS

Available in 3 different types of foam. With 18 oz. fire-retardant vinyl cover and 7/16" OSB backing. Black, Blue, Burgundy, Gray, Green, Kelly Green, Navy, Orange, Purple, Red, Tan, Yellow.

### 2" Bonded Foam

- #3738 2'x5' 25 lbs.
- #3739 2'x6' 32 lbs.
- #3740 2'x7' 38 lbs.
- #3741 Custom-sized: Sold in 6" intervals. Min width 1', max width 4', max height 8'.

### 2" Polyurethane Foam

- #3735 2'x5', 20 lbs.
- #3736 2'x6', 25 lbs.
- #3737 2'x7', 30 lbs.
- #3742 Custom-sized: Sold in 6" intervals. Min width 1', max width 4', max height 8'.

### 1-3/8" Ethafoam

- #3730 2'x5', 20 lbs.
- #3731 2'x6', 25 lbs.
- #3732 2'x7', 30 lbs.
- #3743 Custom-sized: sold in 6" intervals. Min width 1', max width 4', max height 8'.

## OUTDOOR WALL PADS

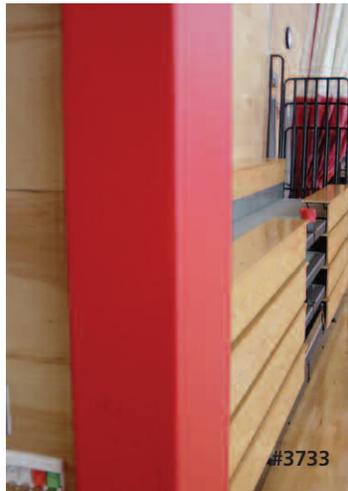

Available in 3 different thicknesses of Polyurethane Foam. With 18 oz. UV-treated vinyl cover and 1/2" thick B/C Grade exterior plywood.

Also available with 3/4" thick B/C Grade exterior plywood (see option #3781). Custom-sized, sold in 6" intervals. Black, Blue, Green, Red (other colors available).

- #3744 2" Polyurethane Foam, 2 lbs./s.f.
- #3746 3" Polyurethane Foam, 3.5 lbs./s.f.
- #3747 4" Polyurethane Foam, 5 lbs./s.f.

#3777 TOOL IN USE

**#3777 FENCE CROWN™ INSTALLATION TOOL**  
Spreads apart corrugated material to ease installation. 3 lbs.

**#3775 19" TIES** Bag of 100. Black, Blue, Green, Red, Yellow. 2 lbs. (not shown)

## Use this Guide to determine the best foam for your use.

### GLOSSARY

#### DENSITY

Lbs. per cubic foot (1.7-lb. density foam means 1 cubic foot weighs 1.7 lbs.)

#### ILD (Indentation Load Deflection)

Measures foam firmness and is independent of foam density. It is the amount of force required to compress (indent) a foam sample to 25% of its original height. The higher the ILD, the firmer the foam.

A 10-ILD open-cell foam is super soft whereas a 100-ILD foam is very firm.

#### CROSS-LINK

A polyethylene/Ethafoam with a smooth finish.

#### OPEN CELL

A foam you can breathe through (Polyurethane).

#### CLOSED CELL

A foam you cannot breathe through (Ethafoam).

**VINYL** Tear-resistant PVC-coated shells with high UV, flame resistance and antibacterial formulations can take the most rugged indoor and outdoor wear. All indoor mats and wall padding meet all fire codes including NFPA 701, California Fire Marshall and UL. Unlike laminated fabrics that tend to peel, these vinyl covers are coated into one homogeneous 18 oz./sq. yd layer of PVC and polyester.

#### VINYL COLORS

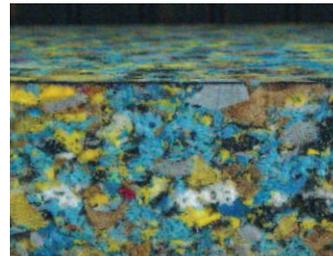

#### ETHAFOAM

A closed cell, cross-link foam that offers firm, lightweight shock absorption for top recoil. Often used for high-impact activities like advanced gymnastics and martial arts.

#### POLYURETHANE FOAM

An open-cell 100 ILD foam used for beginning gymnasts and light tumbling.

#### BONDED FOAM

A 6-lb. density foam that provides durability and safety for medium impact gymnastics, exercise and wall padding. Good for semi-firm landings and stability but less firm than Ethafoam.

#### COMBINATION FOAM

Made of 1" Polyurethane Foam laminated to 1-1/2" Ethafoam that provides a firm landing surface with a soft cushion underneath to prevent bottoming out.
